

LED Chestnut Lights

LED Chestnut Lights - suitable for applications below 2.5m to ground level

Our low voltage LED chestnut lights are made with black rubber cable and can use various LED colours: white, warm white, red, yellow, green & blue.

The E10 LED lamps 12V or 24V are polarised & are replaceable.

We also make special lengths which are not included in table below.

Please contact us with details of what type of application you would like to use these lights which will allow us to design and make your LED Chestnut light system at either 12V or 24V.

240V LED Chestnut Lights on black Rubber cable all include 1m mains lead & plug
