

LED Curtain Lights

LED Curtain Lights

Can be supplied with either white or black rubber cable with white, warm white or blue LEDs.

Can be extendable both sideways & downwards. LEDs are non-replaceable but strings are.

There are 20 drops with standard lengths of 1.5m, 3m, 5m and extendable to other lengths - max length 10m.

We also have 110V versions (not shown in table below).

Please contact us with details of what type of application you would like to use these lights which will allow us to design and make your LED curtain light system at either 110V or 240V.

240V LED Curtain Lights on Rubber cable
