

Festoon Lighting

PVC cable only

Rubber or PVC cable

Rubber or PVC cable

Festoons - rated at IP55

Festoon lighting can be made to any lengths that you require and are heavy duty for both indoor & outdoor use.

Rated at IP55 and can be either BC or ES lampholders and can be used for all sorts of projects:

Architectural projects, Tunnels, Shopping Centres, Shop Fronts, Pubs, Clubs, Weddings, Events/Parties, Concerts, Festivals, Christmas Lighting and so much more.

We have several ranges of different cables for all different projects which are:

LSF - Low Smoke & Fume

LSZH - Low Smoke & Zero Halogen

We manufacture all festoons so please contact us with details to allow us to design & make your festoon lighting system ranging from 240-24V.
