

LED Icicle Lights

LED Icicle Lights

Can be supplied with either white or black rubber cable with white, warm white or blue LEDs.
Can be extendable both sideways only. LEDs are non-replaceable but strings are.

We also have 110V versions (not shown in table below).

Please contact us with details of what type of application you would like to use these lights which will allow us to design and make your LED icicle light system at either 110V or 240V.

240V LED Icicle Lights on Rubber cable
